ANNUAL REPORT

OF THE

Minneapolis, St. Paul & Sault Ste. Marie Railway Co.

FOR THE YEAR ENDING JUNE 30, 1902.

We submit herewith the annual report of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company for the year ending June 30, 1902.

Gross Earnings from all sources were.....	\$6, 257,591.47
Operating Expenses.....	2,941,627.40
Net Earnings.....	3,315,964.07
Fixed Charges, Taxes, etc.....	1,729,462.59
Leaving a surplus of.....	1,586,501.48

During the year 1901 a fair grain crop was harvested along the Company's road, which, coupled with the excellent general business conditions, resulted in a substantial increase in Gross, Net and Surplus Earnings.

The mileage was increased by the completion of the following lines: From Wishek, N. D., to Pollock, S.D., a distance of 69.82 miles; from Summit Junction to Frederick, Wis., 22.43 miles; an extension of the Rice Lake branch to Birchwood, Wis., 16.19 miles, and two or three small spurs aggregating 2.01 miles—making a total increase in mileage of 110.45 miles, or about 8.5 per cent. The Gross Earnings

show an increase of 37.7 per cent, the Net Earnings 68 per cent and the Surplus 383.8 per cent over 1901.

The Operating Expenses were 47.3 per cent of the Gross Earnings—compared with 56.1 per cent the preceding year, 49.6 per cent in 1900, 56.6 per cent in 1899 and 54.1 per cent in 1898. Notwithstanding the decreased percentage of expenses, the property and equipment has been maintained in excellent condition.

During the early spring and summer of 1902 there was a very large immigration into the Northwest. Your company has received a very liberal percentage of these settlers, and a largely increased acreage has resulted—particularly along the lines in North Dakota. The line east from Minneapolis, running through Wisconsin and Michigan, is also receiving increasing attention from settlers, and is rapidly becoming a promising agricultural section.

As will be observed from the balance sheet made a part of this report, only a small portion of the surplus earnings of the past and preceding years are actually on hand in cash or equivalent assets, the balance having been used for the construction of additional road, for various improvements to the main line, and for the purchase of additional equipment. Bonds amounting to \$2,484,000 covering the additional mileage constructed are available for sale when the time is opportune and advances made from Surplus Earnings will be replaced from the proceeds. During the year the Company purchased and has available for the increasing business of the coming autumn, two hundred flat cars, six hundred and twenty box cars, four sleeping cars, six first-class passenger coaches, five mail cars, one dining car, three passenger locomotives, four freight locomotives and an additional rotary snow plow, at a total cost of \$792,843.21.

The Company has constructed a line from Braddock to Bismarck, N. D.—a distance of about forty miles—which began operation August 25th of this year. Most of the work, however, was done before June 30th.

The Company's business has increased so rapidly that additional terminals must be acquired, the cost of which will necessarily be large.

The interests of the Company also demand the construction of additional branches and extensions, which we will submit for your consideration, and hope for favorable action.

Respectfully submitted,

THOMAS LOWRY,

President.

E. PENNINGTON,

2nd Vice Pres. and Gen'l Mgr.
